

INTERNET SUPERVISION

SUPERVISING, MONITORING AND KEYLOGGING

The internet can be a fantastic educational tool, but without parental control software and careful supervision it can be a dangerous place. The more connected we become the more we need everybody online – and that means trying to ensure that our children aren't exposed to the very worst content, ideas and behaviour that exist online.

That's why parental control software is so important – and some of the best tools are completely free.

Software can't do everything, of course, and there's no substitute for being there supervising your kids directly online. Parental control software has its uses through, and can help to make parents' lives much easier – particularly once your kids are a little older and want more independence.

With that in mind, here are our picks of the best parental control tools for Windows, macOS and mobile devices.

HOW TO KEEP CHILDREN SAFE VIA MONITORING ONLINE ACTIVITY.

CHILD SAFETY INFORMATION

CHILD SAFETY APPS

- Google Family link
- Spyzie
- Famisafe
- Qustodio (free & Paid)

CHILD FRIENDLY SEARCH ENGINE...

Kiddle (search engine)

Even with safe search enabled in Google sometimes even the most innocent Google search can bring up some pretty unsavoury content.

That's why Google has developed [Kiddle](#) – a visual search engine specially made for kids.

WHAT ABOUT ON MY OWN DEVICE??

Kids place;

Is one of the [best parental control apps](#) with which to create a safer environment in your mobile phone in which your young ones can experience fun and technology. It protects the personal data available on your mobile phone and restricts kids to some pre-approved apps only.

- **Key features of the app include:**
- Prevents children from downloading new apps
- Supports multiple user profiles
- Timer feature to lock mobile after specified amount of time
- Is capable of disabling all the wireless signals
- Monitors web and search history
- Allows parents to filter adult content and lets them block websites
- Blocks incoming calls when the Kids Place is running
