

Wednesday 15<sup>th</sup> – Thursday 16<sup>th</sup> March

Home learning activities (please use your homework book):

Year 1:

Watch some of the *animal facts* videos in the 'Learning Links section'.

1. Create a fact sheet about one of the animals. Your fact sheet should include a heading, a picture, and facts about your animal.
2. Create your own acrostic poem for one of the animals.

Year 2:

1. Watch some of the *animal facts* videos in the 'Learning Links section'.

Create a fact sheet about one of the animals. Your fact sheet should include a heading, labelled pictures, different sections with sub headings and facts about your animal.

2. Create your own acrostic poem for one of the animals.
3. Read the '*animals affected by climate change*' information. Find 5 words that you don't know the meaning of. Use the dictionary to find the meaning of these words and write the definition in your book.

Fact sheet examples:

**Elephant**

Elephants live...

Elephants eat...

Elephants survive...

**Hibernating Animals**

**What Is Hibernation?**  
Hibernation is when some animals go into a very deep sleep in winter.

**Why Do Some Animals Hibernate?**  
Some animals hibernate in winter because the weather is very cold and it is hard for them to find food.

**Animals That Hibernate**

**Hedgehogs**  
Hedgehogs usually hibernate under a pile of dry leaves. They sometimes hibernate under sheds.

**Dormice**  
Dormice roll themselves into a ball and fall asleep on the ground in a nest of leaves and grass.

**Bats**  
Bats hibernate in empty buildings, old trees or caves. They hibernate on their own or in small groups.
